About The Speakers

Susan Csarari: A Registered Nurse with over thirty years of experience, Susan's background is in Med/Surg and Neurosurgical ICU, as well as Endoscopy. She is now filling a national role with BD-Canada as Clinical Practice Consultant in vascular access blood collection, focusing on education for improving practice; improved specimen quality yields more accurate results and fewer rejected specimens. The result is improved patient outcomes and decreased re-work for nursing and lab professionals.

Dr Greg Harding: Dr. Harding went to medical school at the University of Manitoba and completed a residency in General Surgery at the University of Manitoba. Following his General Surgery Residency, he went on to do a fellowship in Vascular Surgery at the University of Western Ontario. He has been practicing as a Vascular Surgeon in Winnipeg since 2007.

Alana M. Campbell RN, MN: Graduated from Foothills Hospital, School of Nursing, Calgary, AB, completing both her Bachelor of Nursing degree, University of Calgary, Masters in Nursing degree, University of Calgary.

Alana's has worked in multiple specialty areas over the last 32 years. She has been involved in lytic clinical research and teaching in Canada and USA, since 1987 to present, working for Genentech Canada, Roche Canada, Genentech USA and now consulting for Roche Canada as their Lytic Clinical Nurse Specialist in clinical practice.

Alana remains on staff in Emergency for the Calgary Health Region as well as being a Sexual Assault Nurse Examiner with the Calgary Sexual Assault Team.

Leigh Ann Bowe-Geddes, RN, CRNI, VA-BC has over 30 years of nursing experience in ICU, home care/home infusion, and vascular access. She is the Past-president of the Association for Vascular Access, a multi-disciplinary professional organization dedicated to the promotion of vascular access education and research. She has been certified as a CRNI since 1991, and certified as VA-BC since 2010. She is currently the International Clinical Director for Navilyst Medical, and works per diem at University of Louisville Hospital as a Vascular Access Specialist.

Josie Stone has been a Registered Nurse with over 30 years of experience, practicing in many pediatric specialty areas, including Hospital Administration.

She received her Pediatric Nurse Practitioner License in 1982, and currently has her own education and consulting business.

Josie has been closely involved for many of those years in vascular access practice and product development, and has long been a clinical educator for this specialty area. Her initial involvement with IV catheters started with the neonatal population but expanded through the years to all ages and she speaks on these topics to both National and International audiences.

Josie is interested in, and committed to, educating all clinicians to recognize the important role they must play in assessing their patient's needs regarding infusion therapy, selecting the appropriate devices and managing those devices for safe and efficacious outcomes.

Josie has been very involved with Vascular Access and Infusion organizations and is certified as an INS (Infusion Nurses Society) CRNI and member/ Past President of AVA (Association for Vascular Access).
